Fleet Managers and Super intendents

We are Introducing your new best friend, a Wencon repair kit for emergency repairs.

Order your Wencon emergency pipe-wrap kit now, a repair kit that stops the pipe-leak/s super-fast.

A PIPE-WRAP KIT, SUITABLE FOR:

- Seawater pipes and Ballast pipes
- Cable pipes and Cargo pipes
- Heating coils and Heating pipes
- GRP/GRE Pipes
- Exhaust expansion joints
- And much more

Wencon Hi-Temp Coating

A high performance 100% solid epoxy coating developed to withstand temperatures up to 300° C (570° F) as well as resistant to a wide selection of acids, alkaline and solvents.

Wencon UW Coating

A liquid epoxy coating that can be applied on wet surfaces or underwater. Ideal for repair of ballast- scrubber and cooling pipes

Wencon UW Cream

The UW Cream is excellent for filling up holes, dents and rebuilding of surfaces which, due to high humidity, must to be done in wet conditions and underwater.

Wencon Reinforcement Tape

a glass fiber reinforced fabric gauze that reinforces the repair when applied in combination with an epoxy coating.

Wencon Exhaust Repair Kit

Wencon Exhaust Repair is a one-component steel cold weld product that will endure temperature exposure up to 1300° (2400° F). Typical applications include engine heads, blocks and manifolds, furnaces and boilers.
